(DATE)

We, the undersigned, petition the Community Zoning Appeals Board and County Commission to deny The Seed Schools request for any variance, at the property located at 11025 SW 84 ST, relating to required tree coverage, landscaping requirements, or required open landscaping on the property. This property is immediately adjacent to one of the oldest natural parks in the county and the loss of green space will greatly disturb the natural wildlife in the area including 141 documented bird species, 3 documented bat species, 1 documented fox species, and other wildlife that is known to live in the park and surrounding area. The land is not appropriate or zoned for the use requested by The Seed School and we ask that the county require them come into compliance with the required zoning for the property.
